

# JOB OPPORTUNITY

## Delta Stewardship Council, State of California, Sacramento

### ENVIRONMENTAL SCIENTIST

#### Delta Science Program

**Permanent, Full-time Position**

**Salary: \$3,077 - \$5,711**

Do you want to help change California for the better? Make meaningful contributions to water policies that will guide California's development in the years to come? Do you relish learning about new scientific discoveries and trends? If so, we have an outstanding career opportunity you should know about.

The Delta Science Program has an opening for an Environmental Scientist (ES) to help our team as we synthesize cutting-edge science from exceptional minds and leading researchers throughout the nation to keep government policy makers fully informed on timely topics. The information we provide is used in setting state policies on climate change, water supply, ecosystem restoration, water quality, and more.

#### DUTIES INCLUDE BUT ARE NOT LIMITED TO:

- Using your water-resource expertise to analyze, synthesize, and communicate information gathered from multiple scientific disciplines integral to Council programs.
- Working with academic and agency staff, stakeholders, and the public to promote peer-reviewed science information and practices through projects, meetings, technical workshops, and symposia.

#### MINIMUM QUALIFICATIONS:

- Possession of a bachelor's or advanced degree with a major in a biological, chemical, physical, or environmental science, or a closely related scientific discipline. (Admission to a master's or doctoral degree program in one of these disciplines also meets these education qualifications.)

#### DESIRABLE KNOWLEDGE AND SKILLS:

- Knowledge of scientific disciplines related to water resource management, such as fish biology, aquatic ecology, or hydrology.
- Writing skills to produce clear, accurate, and concise science-related articles for a variety of audiences.

#### WHO MAY APPLY:

- California state employees currently in the ES classification or currently on a State list for an ES position.
- California state employees who have similar duties, qualifications, and salary to those described in the duty statement may be eligible for transfer to the ES classification.
- See job duties and application details at: [http://www.deltacouncil.ca.gov/job\\_opportunities.html](http://www.deltacouncil.ca.gov/job_opportunities.html)

***Not already on a State Environmental Scientist list? No Problem.***

***Click [here](#) to take a quick online exam to obtain eligibility on the State Personnel Board's Environmental Scientist Exam List.***

To apply for the job, send your completed Standard State Application form (STD 678), resume, cover letter, and a copy of your list eligibility to the address below:

**Delta Stewardship Council - Human Resources  
980 Ninth Street, Suite 1500  
Sacramento, CA 95814**
